**ML**

## OPTIONAL FEATURES

- **Different screen sizes 46" / 55" / 75".** All screen options are high brightness screens (up to 4000 cd/m2). Single and dual-side options.

- **Touchscreen.** Behind glass, zero-bezel full glass front panel.

- **Branding.** Lot of options to meet your brand stile design – custom colours, custom labelling with optional details.

- **Design customization.** We are able to deliver custom designs to integrate additional devices or meet your corporate brand requirements.

- **Connectivity.** Optional wireless network connectivity options (WiFi, 4G) with vandal proof external antenna to provide kiosk connectivity in all possible locations.

- **Additional Quad-Core industrial PC module.** Powerful PC offers smooth and fast user experience for detail rich graphics.

- **Special kiosk software.** Sitekiosk software restricts public access usage to keep users on preferred site and benefit from advertising when kiosk is not active use.

- **Kiosk Monitoring and remote management.** Siteremote for remote maintenance, usage statistics and kiosk health monitoring.

- **Security.** Lockable kiosk chassis must be fix to ground.

- **Optional devices.** This model can be equipped with additional devices. Please contact to specify additional devices requirements.

## ABOUT US

We are in kiosk production from 1999. Our production and product development process is certified to meet ISO 9001:2015 requirements. We are proud to design our kiosks in-house keeping in mind both aesthetic and functionality.
