

ML interactive kiosk 560 with 22" touchscreen

Infokiosk with touchscreen enables 24/7 unattended/unsupervised self-service. Elegant glass front panel.

FEATURES

- Housing is made from glass and metal.
- 22" PCAP touchscreen with 10-point touch capability
- Secure lockable metal chassis
- Intel® NUC PC module with Intel® Core™ i3 and i5 Processors or Android player
 - Low power consumption (less than 60W)
 - Special kiosk software Sitekiosk and virtual keyboard

OPTIONAL FEATURES

- **Touchscreen.** Possible to order with different touchscreen options – commercial grade or regular touchscreen.
- **Branding.** Lot of options to meet your brand style design – custom colours, custom labelling with optional details. Possible to order as dual-color.
- **Connectivity.** Optional wireless network connectivity options (WiFi, LTE) with vandal proof external antenna to provide kiosk connectivity in all possible locations.
- **Computer.** Intel® NUC computer module ensures smooth and fast user experience for detail rich graphics. Or can be used with an Android player.
- **Kiosk software.** Sitekiosk software for operating and maintaining public access kiosks with virtual on-screen keyboard.
- **Kiosk monitoring.** Siteremote running in Cloud (SaaS) or on own server (license) for remote administration and maintenance of kiosk systems and digital signage displays
- **Security.** The housing is suited for unattended self-service. Housing can be anchored to floor and is securely lockable with single key.
- **Optional devices.** This model can be equipped with RFID, 2D/3D, scanner, smart card reader, speakers or other devices at request.

ABOUT US

We are in kiosk production from 1999. Our production and product development process is certified to meet industry standards requirements. We are proud to design our kiosks in-house keeping in mind both aesthetic and functionality.
