

ML Infokiosk 960 indoor

Elegant edge-to-edge glass front panel with thin and minimalist design of housing fits into various interiors.

FEATURES

- Different commercial grade screens from 32" to 75"
- Vandal-proof tempered glass and aluminum housing with edge-to-edge 6 mm front panel.
- Usage. Digital signage or touchscreen kiosk (typically payment solutions)
- Special Sitekiosk software with virtual keyboard

OPTIONAL FEATURES

- **Different screen sizes** 32" / 48" / 55" / 65" / 75".

Different brightness, resolution options depending on the screen size and model.

- **Wall and freestanding options.** Kiosk screen can be placed vertically (totem) or horizontally in both freestanding and wall models.

- **Touchscreen.** Possible to order with different options: touch trough glass, up to 50 inch or PCAP foil or a digital signage screen without touch.

- **Branding.** Lot of options to meet your brand style design – custom colours, custom labelling with optional details.

- **Design customization.** We are able to deliver custom designs even for one unit, to integrate additional devices or meet your corporate brand requirements.

- **Connectivity.** Optional wireless network connectivity options (WiFi, LTE) with vandal proof external antenna to provide kiosk connectivity in all possible locations.

- **Computer.** Intel® NUC computer module ensures smooth and fast user experience for detail rich graphics. Or can be used with an Android player.

- **Security.** The housing is suited for unattended self-service. Housing can be anchored to floor and is securely locked with a key.

- **Optional devices.** This model can be equipped with RFID, 1D/2D, scanner, smart card reader or other devices at request.

ABOUT US

We are in kiosk production from 1999. Our production and product development process is certified to meet industry standard requirements. We are proud to design our kiosks in-house keeping in mind both aesthetic and functionality.
